

## **Basics of the Potter's Wheel**

Instructor: Jack Norris

**Course Objectives:** Introducing students to basic techniques required to form wheel-thrown ceramics and glazing.

**Course Description:** This course is designed for those who are new to the potter's wheel. Students will learn the basic steps for creating handmade, functional pottery: throwing, trimming, and glazing. All tools and clay will be provided for this class, but additional clay for open studio hours is available for sale. Class is limited to six new students with experienced potters welcome beyond that number.
